

MORTGAGE

April 2013

TECHNOLOGY

mortgage-technology.com

The vendors named to the annual list are an exclusive group recognized for their mortgage technology accomplishments.

The Top 50 Service Providers are recognized for their accomplishments in four criteria—continued advancement of technology and services, viable revenue model and value proposition to customers, exceptional customer service and unique impact on the mortgage industry.

Achieving this level of excellence takes the right mix of wit, careful planning and flawless execution, not unlike the skills a sly wordsmith employs to solve the craftiest of crossword puzzles—albeit in a much higher-stakes venture.

Before reading about the companies that made this year's Top 50 list, test your industry knowledge by completing the adjacent crossword puzzle. The answer to each clue is the name of one of this year's Top 50 Service Providers. If you get stuck, the clue is at the end of each company description on the following pages, and both the blank and completed versions of the puzzle are online at www.mortgage-technology.com.

PLATINUM DATA SOLUTIONS

platdata.com

The Platinum Data automated appraisal review platform was enhanced with a qualitative scoring function that grades valuation reports on a three-tier scale based on the number and type of discrepancies identified in the appraisal data. The Aliso Viejo, Calif.-based company also integrated its technology with appraisal management platforms and built mobile-optimized versions of its websites.
